STELLENBOSCH

‘Stellenbosch awarded Africa’s first ‘safe travels stamp’

The WTTC award the stamps of approval to places that have conformed to guidelines preparing them for tourism post-COVID-19.

The town of Stellenbosch in the Western Cape has been given Africa’s first stamp of approval from the World Travel & Tourism Council (WTTC), who have outlined what safety precautions should be taken to ensure that areas are ready to welcome back tourists post-COVID-19.
